1997–Present – In addition to these, I have worked on innumerable other small surveys, testing, and full-scale mitigation projects from 1972 to the present, mainly in Missouri, Illinois, and Arkansas. Many are too small for listing above and, for the sake of brevity, all field activities undertaken since 1996 are not listed. Although unlisted past 1996, my fieldwork activities have continued, including the direction of the Big Eddy Project for more than a decade. These have entailed both paid staff and voluntary assistance. I continue to be actively involved in field projects of all sizes. In addition to the

many archaeological projects, I have assisted and supervised the physical and documentary reconstruction of three log cabins dating between 1800 and 1840. I also have assisted on architectural history surveys, and I've conducted historical research on General Land Office, deed, cemetery, marriage, and tax records, among others. I am a common peer reviewer of articles submitted for publication in journals and I am currently editor of *The Missouri Archaeologist* and the *Missouri Archaeological Society Quarterly*, which entails soliciting and editing manuscripts, preparation of forewords and columns, and many other activities.

### C. Grants and Contracts

Within the past 32 years, I have served as **Principal Investigator** or **Co-Principal Investigator** on more than 700 cultural resource management contracts amounting to over **\$9,000,000**. I've also been the recipient of grants from the National Geographic Society, the Allen P. and Josephine B. Green Foundation, the National Park Service, the Missouri Department of Natural Resources, the Shirley and Tom Townsend Family, the Archaeology Committee of the Ministry of Culture of Trinidad & Tobago, the Archaeology Subcommittee of the National Trust of the Ministry of National Diversity and Social Integration of Trinidad & Tobago, and the U.S. Embassy. I've collaborated on research for several National Science Foundation (NSF) grants and I've reviewed numerous NSF proposals during the past 30 years, including submittals by senior researchers as well as PhD students seeking dissertation improvement awards.

### D. Laboratory Experience

1973 (Summer) General Laboratory Experience gained during field school training; Dr. Sidney Denny, Teacher.

1972 to 1975 (4 yrs., Part-Time) **Research Associate, Missouri Botanical Garden**, St. Louis, Missouri; archaeobotanical work under the tutelage of Drs. Hugh C. Cutler and Leonard W. Blake; primarily studies of cultivated plant materials from the Greater Southwest, including northwestern Mexico, and from Eastern North America.

1978–1979 (8 mos.) Carrier Mills Archaeological Project; **Laboratory Supervisor**; funded by Peabody Coal Company, Center for Archaeological Investigations, SIU-C; Dr. Richard Jefferies, Project Director, and Drs. Brian Butler and David Braun, Principal Investigators.

1979–1980 (16 mos.) Carrier Mills Archaeological Project; **Director of Archaeobotanical Research** (Staff Researcher).

1980 (2 wks.) **Lithics Analyst**, Kofahl Tract Project, American Resources Group, Carbondale, Illinois.

1981–1982 (22 wks.) **Supervisor**, Kingfish site artifact analysis, SIU-Carbondale; Dr. David Braun, Principal Investigator.

1984–Present, as **Principal Investigator**, supervised or directed all types of laboratory analyses and collections management programs.

1972–Present (Part-Time), **Archaeobotanical Consultant/Analyst** for numerous projects or sites (note that because of my developed expertise and recognition as an expert in the field, I also often check the work of others, including MA students and younger PhDs, mainly on a gratis basis if I have time). I have undertaken studies of plant remains from a great array of sites, including but not exclusively the following:
